## Black Moshannon State Park

Black Moshannon State Park covers 3,394 acres of forests and wetlands and conserves unique, natural environments. More than 43,000 acres of the Moshannon State Forest surround the park and help create a remote and wild setting that provides recreational opportunities in all seasons.

The park is known for spectacular bogs, marshes, and swamps. Discover wetlands by walking the Bog and Moss-Hanne trails. Look for carnivorous plants, such as pitcher plant and sundew, other unusual wildflowers, and colorful damselflies and dragonflies. Sharp-eyed visitors may encounter frogs, salamanders, northern water snakes, or black bears. Many birds make their summer homes only in wetland habitats making the park a great place for birdwatching.
