# Ghost Town Trail

Encompassing 46 miles of natural beauty and fascinating historical features, the Ghost Town Trail (GTT) throws in a bit of a challenge for flavor. Named for the long-gone coal mining communities that once dotted its path, the GTT travels through Cambria and Indiana counties, past two massive iron furnaces and other traces of the surrounding area's historical coal mining, lumbering, and ironmaking industries. Situated in the scenic Blacklick Creek Valley, the GTT winds alongside mountain streams, passes through woodlands filled with rhododendron and wildflowers, and leads to welcoming communities.
