

Fred Woods Trail

The Fred Woods Trail was created by the Camp Quehanna Young Adult Conservation Corps in the summer of 1980.

The hiking only trail was established in memory of Frederick Woods, a Forest Foreman with the Bureau of Forestry, who was fatally injured in an accident while performing his duties on state forest land.

Trail Information

The Fred Woods Trail is 4.57 miles long and marked in yellow paint. To find the trail, head west on Route 555 from Driftwood and turn right onto Mason Hill Road. Go 3.75 miles on Mason Hill Road and the trailhead will be on your left and the parking will be on your right.

Care for the Land

State forests belong to all Pennsylvanians. Take time to enjoy them, but know the rules and regulations designed to protect the forests and you. Please be careful with fire, keep our forests litter free and don't damage trees and other plants.

Dual Certified Forest

Pennsylvania's 2.2-million-acre state forest system is one of the largest dual certified forests in North America. The forest is certified under Forest Stewardship Council™ and Sustainable Forestry Initiative© standards. The FSC© is an independent organization supporting environmentally appropriate, socially beneficial, and economically viable management of the world's forests. SFI© certification focuses on protection of water quality, biodiversity, wildlife habitat, species at risk, and forests with exceptional conservation value. Dual certification ensures that Pennsylvania's state forests are managed to the highest third-party standards.

The mark of responsible forestry
