

Camp William Penn

The Camp William Penn Tract totals over 330 acres and is located near the intersection of Snow Hill Road and Marshalls Creek Road in Porter Township, Pike County. Formerly a youth summer camp, this tract features a variety of mixed-oak forests and open grass fields, as well as an 8-acre pond open to catch and release fishing only. Due to its variety in habitat types and abundance of early successional habitat, this area is very popular for bird watchers. An unnamed tributary to Bush Kill Creek flows through this tract and supports a natural reproducing population of trout.

Care for the Land

State forests belong to all Pennsylvanians. Take time to enjoy them, but know the rules and regulations designed to protect the forests and you. Please be careful with fire, keep our forests litter free and don't damage trees and other plants.

Dual Certified Forest

Pennsylvania's 2.2-million-acre state forest system is one of the largest dual certified forests in North America. The forest is certified under Forest Stewardship Council™ and Sustainable Forestry Initiative® standards. The FSC® is an independent organization supporting environmentally appropriate, socially beneficial, and economically viable management of the world's forests. SFI® certification focuses on protection of water quality, biodiversity, wildlife habitat, species at risk, and forests with exceptional conservation value. Dual certification ensures that Pennsylvania's state forests are managed to the highest third-party standards.

Leave No Trace

By taking the time to practice responsible outdoor ethics we can ensure that our state forests remain premier destinations for generations to come.
