

You're Invited!

2023 Watershed Forestry Summit

June 13, 14, and 15

**Blair County Convention Center
Altoona, PA**

The Watershed Forestry Summit brings over 250 restoration and conservation professionals together to share knowledge, planting and outreach techniques, success stories, funding opportunities, and more! By providing ample opportunities for connection, the Summit empowers and inspires practitioners to plant forests and meadows that improve the waters of Pennsylvania and beyond.

The main conference is June 14 and 15. The optional and additional field trip on June 13 will take attendees to visit riparian forest buffer and lawn conversion projects.
